The previous chapter presented adjustments that might be needed at the end of each accounting period. These adjustments were necessary to bring a company's books and records current in anticipation of calculating and reporting income and financial position.

Preparing Financial Statements - principlesofaccounting.com

A financial audit is conducted to provide an opinion whether "financial statements" (the information being verified) are stated in accordance with specified criteria. Normally, the criteria are international accounting standards, although auditors may conduct audits of financial statements prepared using the cash basis or some other basis of accounting appropriate for the organisation.
