Center for Reconstructive Urethral Surgery Arezzo - Italy

Plastic surgery is a surgical specialty involving the restoration, reconstruction, or alteration of the human body. It can be divided into two categories. The first is reconstructive surgery which includes craniofacial surgery, hand surgery, microsurgery, and the treatment of burns. The other is cosmetic or aesthetic surgery. While reconstructive surgery aims to reconstruct a part of the body ...

post urethral stricture - urethrotomy by dan120748, 1 minute ago I just went through the urethrotomy and was told it would take care of my inability to fully empty my bladder - after returning to the hospital today they told me I would have to use a daily catheter - will this be for ever or just ...

Urethrotomy -- what should I expect for healing/recovery

Surgery (from the Greek: χεῖρουργικὴ (composed of χεῖρ, "hand", and ἔργον, "work"), via Latin: chirurgiae, meaning "hand work") is a medical specialty that uses operative manual and instrumental techniques on a patient to investigate or treat a pathological condition such as a disease or injury, to help improve bodily function or appearance or to repair ...

Surgery - Wikipedia

ABSTRACT. PURPOSE: The aim of this study is to thoroughly report on surgical outcomes from 332 patients who underwent male to female gender reassignment surgery (GRS). MATERIAL AND METHODS: Records from 332 patients who underwent GRS from 1995 to 2008 were reviewed. All patients were submitted to penile inversion vaginoplasty with glans-derived sensate clitoroplasty.

General Purpose Health Net's National Medical Policies (the "Policies") are developed to assist Health Net in administering plan benefits and determining whether a particular procedure, drug, service, or supply is medically necessary.

Medical Policies - Health Net

The normal function of the urinary bladder is to store and expel urine in a coordinated, controlled fashion. This coordinated activity is regulated by the central and peripheral nervous systems. [] Neurogenic bladder is a term applied to urinary bladder malfunction due to neurologic dysfunction emanating from internal or external trauma, disease, or injury.
