Real estate appraisal, property valuation or land valuation is the process of developing an opinion of value, for real property (usually market value). Real estate transactions often require appraisals because they occur infrequently and every property is unique (especially their condition, a key factor in valuation), unlike corporate stocks, which are traded daily and are identical (thus a ...

1. Introduction. The transformation of biomass into chemicals has a long history. At the beginning of the 20th century, a large number of industrial products were manufactured from wood-based resources and crops .During the past 100 years, the interest on utilization of bio-based resources is inversely correlated with the oil supply and price .
