The Central Pacific Railroad (CPRR) was a rail route between California and Utah built eastwards from the West Coast in the 1860s, to complete the western part of the "First Transcontinental Railroad" in North America. It later became part of the Union Pacific Railroad. Many 19th century national proposals to build a transcontinental railroad failed because of the energy consumed by political ...

Rail transport is a means of transferring of passengers and goods on wheeled vehicles running on rails, also known as tracks. It is also commonly referred to as train transport. In contrast to road transport, where vehicles run on a prepared flat surface, rail vehicles (rolling stock) are directionally guided by the tracks on which they run. Tracks usually consist of steel rails, installed on ...
